Allowable Subject Matter

1. The following is an examiner's statement of reasons for allowance:

The primary reasons for allowance of the claims is the inclusion of *"distributing a name distribution message in the ad hoc network, said name distribution message associating a user device address with a user-defined name and including an operation code" in independent claims 1, 21, 30, 45, 47, 49, 51, 67*. The prior art, Voit et al. U.S. patent # 6,215,790 B1, Barnier et al. U.S patent # 6,690,932 do not have these limitations. The Examiner's interpretation of the claim language is based upon Applicant's remarks/arguments filed on 02/16/2006 (pages 31-32), and the enabling portions of the specification, pages 9-15).

Therefore, Applicant's instant claims are considered to be allowable.

2. The double patenting rejection has been withdrawn based on Applicant's remarks received on 16 February 2006 on page 31.
3. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
4. **Claims 1-68** are allowed.
